

# MOOSALEBBE MUJAHID AHAMED

## SOFTWARE ENGINEER | WEB DEVELOPER

BSC. IN SOFTWARE ENGINEERING | HND IN SOFTWARE ENGINEERING

Panadura, Sri Lanka | +94-728-966-961 | mujahidmjh2001@gmail.com

### PROFILE SUMMARY

PHP/Laravel Software Engineer with 3+ years of experience in designing, developing, and optimizing scalable applications. Strong in RESTful API design, MVC architecture, OOP concepts, secure coding (OWASP), database design, and modern tooling such as Git, PHPUnit, Postman, Redis, and CI/CD. Experienced in leading full SDLC and collaborating with cross-functional teams.

### HARD SKILLS

- ✓ PHP (Expert)
- ✓ Laravel Framework (Expert)
- ✓ RESTful API Development
- ✓ OOP, Interfaces, Traits, Abstract Classes
- ✓ MVC Architecture
- ✓ MySQL, PostgreSQL, Query Optimization
- ✓ Git, GitHub
- ✓ PHPUnit / Unit Testing
- ✓ Redis / Caching
- ✓ HTML5, CSS3, JavaScript, AJAX
- ✓ API Integration / Third-party Libraries
- ✓ Secure Coding (OWASP, XSS, CSRF, SQL Injection Prevention)

### SOFT SKILLS

- Observation
- Decision Making
- Communication
- Multi-Tasking

### EDUCATION

#### Bachelor's in Computer Science

In Software Engineering 2023-2024  
Completed in 2024 Dec

#### Advanced Certificate Course

In Java 2024 – 2024  
Completed

**Advanced .NET Full-Stack & Microservices Program**  
In .NET 2024-2024  
Completed

### PERSONAL DETAILS

Nationality: Sri Lankan  
Visa status: applied for visit visa  
GitHub: [github.com/Mujahid-Ahamed-2001](#)  
LinkedIn: [linkedin.com/in/moosalebbe-mujahid-ahamed/](#)

Open to UEA / Gulf countries

### WORK EXPERIENCE

#### Software Engineer

Blinq Software (Pvt) Ltd | May 2025 – Present

- Designed, developed, and optimized PHP/Laravel applications following MVC architecture.
- Built RESTful APIs and integrated third-party services (SMS, Email, Payment Gateways).
- Implemented secure coding practices based on OWASP standards.
- Developed modular, reusable, and testable components using Traits, Interfaces, Abstract Classes.
- Performed unit and integration testing using PHPUnit.
- Designed relational databases and optimized SQL queries for performance.
- Led full SDLC processes including requirement gathering, development, testing, and deployment.
- Collaborated with 25+ team members using Git branching strategies and Agile workflows.

#### Software Engineer

Synnex IT Solutions (Pvt) Ltd | Jun 2024 – April 2025

- Developed scalable Laravel systems including HR, ERP, and recruitment platforms.
- Built factories, services, and facades to support modular architecture.
- Implemented Redis caching and optimized backend performance.
- Created API documentation and maintained CI/CD pipelines for deployments.
- Troubleshoot complex bugs and improved system performance.
- Conducted code reviews and mentored junior developers.

## **Associate Software Engineer**

**Synnex IT Solutions (Pvt) Ltd | Dec 2023 – Jun 2024**

- Assisted in developing web applications using PHP and Laravel
- Wrote and maintained clean, efficient code
- Debugged issues and optimized application performance
- Participated in code reviews and Agile team discussions
- Assisted with database design and SQL queries
- Used Git for version control and collaboration
- Conducted basic testing to ensure reliability
- Supported deployment and feature enhancements
- Helped build UI components using HTML, CSS, and JavaScript
- Continuously learned new tools and best practices

## **Junior Software Developer**

**Emerald Isle Manpower | Jul 2022 – Dec 2023**

- Developed and maintained applications using Laravel (MVC) following best practices
- Enhanced internal systems and workflows, improving efficiency and user experience
- Designed and implemented an HR leave management system, boosting productivity by 40%
- Revamped the company website, increasing organic traffic by 40% and conversions by 25%
- Built and documented RESTful APIs and system features
- Optimized database queries and application performance
- Deployed updates, monitored systems, and resolved post-release issues
- Collaborated with cross-functional teams and QA to deliver stable solutions
- Supported users, handled troubleshooting, and contributed to code reviews
- Continuously researched and adopted new technologies for performance and security

## **Digital Marketing Executive**

**Emerald Isle Manpower | Feb 2022 – Jul 2022**

- Created engaging content and managed social media campaigns across multiple platforms
- Managed TikTok and YouTube accounts to drive audience growth and engagement
- Implemented SEO strategies, achieving first-page rankings for 20+ keywords
- Increased organic website traffic by 50%
- Planned and executed promotional and paid ad campaigns
- Analyzed performance using Google Analytics and delivered monthly reports
- Collaborated with design and sales teams to align marketing with business goals
- Conducted A/B testing to optimize content and ad performance
- Managed content calendars, email campaigns, and online community engagement

## **Projects**

- ✓ ERP System
- ✓ Inventory Management System
- ✓ POS System
- ✓ HR Management System
- ✓ Laravel Ecommerce System
- ✓ Project Management System
- ✓ REST API + Mobile Integration

## **Project**

## **Testing & Security**

- PHPUnit / Integration Testing
- OOP & Modular Design
- Security Best Practices  
(OWASP, CSRF, XSS, SQL Injection Prevention)
